## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-7,9-11,15-17,29-30 and 32-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Davis (USPN 5,562,652). The portion has an outer wall, at least one active lumen within the outer wall and a false lumen (42) within the outer wall. See figure 5. The active lumen at least partially surrounds the false lumen. See figure 5. The false lumen has a sealed distal portion. See figure 2. A substrate including an iodine-based substance is capable of being inserted into the false lumen.

### ***Response to Arguments***
